

1. Title Page

- **Project Title:**
- **Team Name:**
- **Team Members:**
 - Name, Role, Email
 - (Add more members as needed)
- **Institution/Organization:**
- **Country:**

2. Executive Summary

- **Objective:** Briefly describe the main goal of the project.
- **Social Issue Addressed:** Explain the social issue on Earth that your project aims to solve.
- **Proposed Solution:** Summarize your proposed solution using astronomy or space development.

3. Introduction

- **Background Information:** Provide context about the social issue and its impact.
- **Relevance of Astronomy/Space Development:** Explain why astronomy or space development is suitable for addressing this issue.

4. Project Description

- **Detailed Solution:**
 - Describe the proposed project in detail.
 - Explain the methodology and technology involved.
- **Innovative Aspects:** Highlight what makes your project unique and innovative, focusing on originality and creativity in design.

5. Objectives and Goals

- **Short-Term Objectives:** List the immediate goals to be achieved within the first year.
- **Long-Term Goals:** Outline the long-term impact and sustainability of the project.

6. Implementation Plan

- **Timeline:** Provide a detailed timeline with key milestones.
- **Resources Required:**
 - Human Resources
 - Technical Resources

- Financial Resources
- **Partnerships and Collaborations:** Mention any partnerships with other organizations or institutions.
- **Realism:** Explain the practicality and feasibility of your plan, ensuring it is achievable with current or near-future technology.

7. Technical Feasibility

- **Technical Soundness:** Discuss the scientific and engineering principles behind your project, demonstrating their correct application.
- **Safety and Risk Management:** Identify potential risks and safety concerns, and provide thorough risk mitigation strategies.

8. Impact and Benefit

- **Social Impact:** Describe the potential positive effects on society, addressing significant challenges or providing substantial benefits.
- **Economic Viability:** Discuss the economic sustainability of the project, including any business models or funding strategies.
- **Environmental Considerations:** Assess the environmental impact of the project and include measures to minimize negative effects.

9. Budget

- **Estimated Budget:** Provide a detailed budget breakdown.
- **Funding Sources:** Mention any existing or potential sources of funding.

10. Conclusion

- **Summary:** Recap the key points of the proposal.
- **Call to Action:** Encourage support and collaboration for the project.

11. Appendices

- **References:** List all references and sources used in the proposal.
- **Supporting Documents:** Include any additional documents, charts, graphs, or images that support the proposal.
